MADE A MATTER OF RECORD

DATE 7-8-75 CHARLES W. WESTERMAN, CITY CLERK

THE CITY OF FORT WAYNE

board of public works

June 5, 1975

The Common Council
Fort Wayne, Indiana

Gentlemen and Mrs. Schmidt:

The Board of Public Works respectfully requests "Prior Approval" to purchase from Industrial Tractor and Equipment Company, one (1) tractor with loader and backhoe unit for Water Maintenance and Service Department, purchase order 6834 in the amount of \$15,500.00.

Please refer to attached copy of Mr. Mendel's memo detailing the necessity for replacing unit #654 immediately. The department's capital budget plan for 1975, item 75-M4-5, stipulated a replacement for unit #654 at an estimated cost of \$20,000. In an effort to minimize costs Mr. Mendel and Chuck Nash have been able to re-build unit #640 and replace unit #654 at a total cost of \$19,300.00,

An ordinance will be submitted for formal approval at a later date.

Sincerely,

J. D. Boswell
Dr. Jerry D. Boswell
Chairman, Board of Public Works

Water Capital
Budget file

Suspense -BTM
6/6/75

On Friday, May 31, 1975, Unit # 654 (1966 Wayne-Roy Backhoe) engine blew up on a job site where Water Maintenance and Service was excavating.

The #1 piston blew completely out of the block, and the rod came out the side of the block, damaging the power steering unit and the governor system.

Industrial Tractor Co. (Case) tells us that repairs would involve complete new short block (including crank, cam, bearings, rods, pistons, and rings); re-grinding valves in head; new power steering unit; and new governor system. Parts would have to be ordered out of Massachusetts, and there is an estimate of one month's out-of-service period if all parts were available without back-ordering.

When Mr. Nash, Water Maintenance & Service Superintendent, and I reviewed his department's capital budget plan for 1975 (a copy of which is in your possession), item 75-M-5 stipulated a replacement backhoe for Unit # 654 at an estimated cost of \$20,000. In capital planning discussions, Chuck and I chose, instead, to completely re-build Unit # 640 (1965 Case back-hoe, still in basically serviceable condition)....at a cost of \$3,800.....and delaying unit replacement for one year. This was done, Unit # 640 is back in service with no interruption since re-build.

Replacing Unit # 654 at this time, in view of the engine problem, would cost \$15,500 (net trade-in...see attached quote). Delivery would be five days. Total cost of replacement and re-build (for the two back-hoe units involved), would be, therefore, \$19,300.

Mr. Nash and I therefore recommend your approval of attached purchase requisition for procurement of back-hoe replacement for Unit # 654.

A competitive quote submitted by Industrial Equipment Sales and Services (Massey Ferguson Backhoe) on same specifications was for \$16,895 (net, with trade-in of Wayne-Roy)....a later phone call from this source stated that price could be revised downward to \$15,800.....still above the quote from Industrial Tractor & Equipment Company (Case back-hoe). We also prefer this source, since our other back-hoes are Case (and operator familiarity is a productivity factor), parts availability and service turn-around time have been excellent, and deliverability for the entire unit is five days, compared to 14 days (base unit) and 30 days (cab) for the Massey-Ferguson.

We are requesting prior approval from Common Council, in order to minimize out-of-service time for available back-hoe equipment.
